Supported Client Operating Systems
- Windows 10 Professional version 1709 or later

New Features
- We've added a Pitch Plot by Pitch Type report to the Breakdown sections.

Updates
- The Play Situation display has been updated to include the following MLB Statcast data fields
  - Pfx_X (Horizontal break)
  - Pfx_Z (Vertical break)
  - SpinAxis (Displayed in clock form)
  - PitchSpinAxis (Raw Statcast data)
- The Play Situation display is now sticky between app sessions for each user.
- We've added a strikeout total to the data table above the spray chart.
- We've renamed the Default Report to Pitch Plot by Result in the Breakdown section.

Bug Fixes
- We fixed an application crash when using a resolution higher than 1920x1080 and DPI greater than 200%.

Pitch Plot by Pitch Type Report

- We've added a Pitch Type report to the Breakdown section that displays pitch location by pitch type.
